

EduTrack360™

Digitizing Educational Operations

EduTrack360 is a Student Information Management System (SIMS) that empowers higher education institutions to unify and modernize the entire academic lifecycle, from recruitment to alumni engagement. Designed to replace fragmented legacy systems, EduTrack360 offers a centralized, intelligent, and user-friendly platform that enhances operations, decision-making, and the student experience.

Key Portals

Application Portal

Streamlined admissions management

Enrollment Services

Course registration and scheduling

Student, Faculty & Staff Portals

Secure, role-based access

Alumni Relations

Lifecycle engagement and communication

Finance & HR

Integrated billing, payroll, and staffing tools

Research & Innovation

Project tracking and collaboration

Student Records

Transcript automation and degree audits

Academic Advising

Personalized planning and early intervention

What Sets EduTrack360 Apart

- End-to-end lifecycle management
- Real-time insights and reporting
- Automation of routine tasks
- Secure, role-based portals
- Deep Microsoft 365 integration
- Enhanced student self-service experience

Use Cases

- **Remote & Hybrid Learning:** Integrated LMS, Teams, and calendar tools for a unified digital experience
- **Proactive Advising:** Real-time alerts help advisors support at-risk students early
- **Unified Operations:** HR, finance, and student affairs work together with shared data and workflows

Proven Benefits

- **50-70% faster** admissions and enrollment workflows
- **Fewer data errors** and duplications
- **Higher student satisfaction** through seamless portals
- **Improved compliance** with FERPA, GDPR, and accreditation standards
